

THE BHDPS REGIONAL ICS  
GRANT PRESENTS:

# Blue Card Mayday Management Workshop

MAYDAY, MAYDAY, MAYDAY" are the most frightening words transmitted on the fireground. It means something has gone terribly wrong and a firefighter, or worse yet firefighters, are in distress and calling out to the heavens for help. Your heartbeat races as anxiety starts to build. Emotions are running high as the fireground transitions toward chaos. What do you do? How do you manage an event of this magnitude? Why did it happen in the first place?

Blue Card will address these issues, and many more, in a two-day workshop and continuing education event dedicated to Mayday Management. We will offer task, tactical, and strategic level solutions to Mayday Management that will be exercised in Mayday simulation training.
